WORK EXPERIENCE 2024

Please RETURN THE SIGNED YELLOW PLACEMENT AGREEMENT to Miss Lovatt

If the required signatures are not obtained and the form is not returned to school before Work Experience starts, the pupil will not be able to attend their placement and will be expected to attend school as normal.

If you have any further enquiries, please do not hesitate to contact Mrs Rogers or Ms Lovatt via Synergy or on 01772 782316.

THANK-YOU FOR ALL YOUR CO-OPERATION!

Year 11s – It's time to accept your offers!

We encourage all pupils to accept their places at all the colleges they have applied to.

Applied to Blackburn College?

Secure your place and

PRESTON
COLLEGE

Enrolment is ONLINE ONLY. Please follow the instructions below and read our FAQs. If you have any questions, please contact us on 01772 225517 or email guidance@preston.ac.uk or see Miss Lovatt in school.

Preston College have sent out via email enrolment account information to all Year 11 pupils that have applied and completed a college interview. All the instructions can be found here <https://www.preston.ac.uk/14-19-school-leavers/enrolment-at-preston-college/> This year it's looking more likely that we will have limited spaces on a number of courses due to the high numbers of applications.

Preston College have also sent a personalised invite via a letter home for pupils to attend a welcome evening, where they can try out their course and meet their tutors. These will be held on 29th April, 30th April and 1st May 5-7pm depending on subject choices.

Please note you must book on to the welcome evening.

EXAM REVISION

7 of the best free online revision tools

When revision time comes around, it's always handy to have a few tricks up your sleeve to help you understand and memorise all the different facts and formulas you'll need.

1. Flashcard+ and Quizlet

Save paper and the pain of trying to decipher your handwriting with a flashcard app. Look for a version like Flashcards+ (iOS), which lets you create your own cards or import existing sets through Quizlet, a brilliant community site for students to share study notes.

2. BBC Bitesize

BBC Bitesize breaks down subjects into handy smaller chunks and lets you revise topics, watch video summaries, complete activities and test yourself as you go. The site covers subjects from Key Stage 1 to GCSE.

3. Revision planning apps

A big part of revision is getting organised and keeping track of your study. You can create a colourful revision timetable with the help of Get Revising, which will even suggest a schedule for you to follow.

4. Khan Academy

The Khan Academy YouTube channel includes video tutorials and tests in maths, science, economics, computing and history. It's a great tool for getting to grips with the basics or taking on advanced study for extra credit.

5. Spark Notes

Explore English Literature texts, watch video summaries and study a host of other subjects with popular study notes site Spark Notes. Try out No Fear Shakespeare, which puts the original text side by side with a modern translation to help you pick up the story and translate new words as you go.

6. Sparx Maths

According to Sparx Maths, just one hour of personalised homework per week is proven to improve your grades. Some schools and colleges use Sparx Maths to create resources tailored to individual students. If you don't already use it, ask your maths teacher whether they have considered using Sparx or a similar tool to create personalised homework to help you get the most out of your personal study time.

7. BBC Brain Smart

Need a quick study break? Why not stay productive and wake up your brain by playing a game from BBC Brain Smart. There are fun games to help you boost your memory, remember chains of numbers, get motivated and manage stress. And all without feeling like you are doing any real work (we promise!)

Jaguar Land Rover is a company that brings together two much loved, highly prestigious British car brands. We are looking for people who share our passion to join our highly successful Retailer Apprenticeship Programme.

[Apprenticeship vacancies - Training 2000](#)

Amazing Apprenticeships is a leading organisation in the education sector, working with schools, colleges and employers, tackling misconceptions and promoting the benefits of apprenticeships and technical education. As experts on apprenticeships and technical education, we influence the way that apprenticeships are perceived and drive forward innovative and creative work in England and internationally, to ensure that more individuals and businesses can access the benefits of apprenticeships. We have already brought about a huge culture change amongst schools in the way that apprenticeships are perceived and promoted to students... but there is always more to do! [About ASK - Amazing Apprenticeships](#)

This month's edition of the Parents & Carers Pack includes the latest apprenticeship news, gives insights into apprenticeships with Arnold Clark, shares Alex's story as a former T Level student moving into a Civil engineering apprenticeship and much more. Amazing Apprenticeships

JOB OF THE WEEK

NEUROLOGIST

Annual salaries £24,907 to £62,001 per year.

WORKING HOURS

37 to 39 a week

You could work: evenings; flexibly

Working Environment – You could work in an NHS or private hospital or in the community.

What is involved in becoming a neurologist? The qualifications necessary to become a neurologist include:

- Undergraduate degree
- Doctoral degree
- Completion of medical residency program
- Certification and state license

Though there are several undergraduate degrees you can earn to help you pursue a career as a neurologist, some of the most influential degrees include biology, physics and chemistry.

To become a neurologist, you'll need to start by taking a degree in medicine recognised by the General Medical Council (GMC). This usually takes five to six years to complete.

Neurologists diagnose, treat and manage disorders that affect the central nervous system (the brain and spinal cord) and the peripheral nervous system (nerves and muscles which activate movement and transmit sensation from all parts of the body to the brain).

Neurologists treat conditions such as:

- Stroke.
- Multiple sclerosis.
- Headaches.
- Blackouts.
- Peripheral neuropathy (disease affecting the nerves) including chronic neuropathic pain.
- Parkinson's disease and other movement disorders (e.g. tremor)
- Alzheimer's disease and other forms of dementia.
- Amyotrophic lateral sclerosis also known as motor neuron disease, causing weakness and muscle wasting due to nerve degeneration.
- Epilepsy.
- Spinal cord diseases.
- Muscle diseases like muscular dystrophy (causing weakness of muscle fibres)
- Myasthenia gravis (where the muscles become weak and tire easily) and related disorders.
- Brain tumours.
- Functional disorders (symptoms which cannot be explained by neurological damage)

Skills required to be a neurologist. While performing their daily responsibilities, neurologists make use of several skills including:

Problem-solving - Dexterity - Communication - Leadership

Neurologists often work with a medical team that helps them fulfil their duties. When their team helps them with tests and treatments, neurologists have to show strong leadership capabilities to communicate tasks and sometimes physically demonstrate how to perform procedures.

Career Path - As a consultant you will gradually gain more experience in your clinical duties and take on more responsibilities. You'll have the opportunity to move into managerial roles, initially as a medical lead, then as a clinical director and later on as a medical director.

Volunteering and work experience

Before applying to do a medical degree, you'll be expected to undertake work experience, either paid or voluntary, in areas relevant to medicine. This could be through work experience at your local hospital, nursing home or through work shadowing a doctor. This experience shows your commitment to becoming a doctor and provides insight into the physical and emotional demands of working in medicine.
